Letter of Appreciation

We Prayosa Buildmat Pvt. Ltd., (<https://prayosa.in/>) are the exclusive licensee in India of Allan Block Corp. USA – The world leader in Mortarless Block technology being manufactured and sold in 34 countries across the World. Our core application includes segmental retaining walls, Compound walls and landscaping elements.

For these applications, we have consistently relied on Woven Polyester Geogrids manufactured by CTM Technical Textiles Ltd., having their state-of-the-art facility near Ahmedabad, Gujarat, India.

Being that CTM Geogrids have been tested for their connection strength for the Allan Block's AB Collection and AB Fieldstone Collection, that we manufacture in India (<https://allanblock.in/>) these geogrids have been approved and incorporated by our principals in their world renowned AB Walls 15 software available for structural engineers and hence it is our preferred choice while selecting geogrids(<https://allanblock.com/abwalls/abwalls-software.aspx>)

CTM Technical Textiles Ltd. has consistently demonstrated their unwavering dedication to consistently delivering high-quality products and meeting our stringent expectations in terms of durability, strength, and overall performance. This has played a pivotal role in ensuring the structural integrity and long-term durability of our reinforced earth walls, which are an integral component of construction projects.

We wholeheartedly endorse CTM Technical Textiles Ltd. as a reputable and trustworthy supplier of geogrid materials and eagerly anticipate the opportunity to continue and enhance our successful collaboration with them in the future.

Yours Sincerely,

For, PraYoSa Buildmat Pvt. Ltd.
